

REALISM THAT GETS RESULTS

WATERFOWL DECOYS / ACCESSORIES / CALLS / DEER DECOYS / WEAPONS STORAGE

Over the years Flambeau has created a turnkey internal product development capability that enables us to control every aspect of our development process from conceptual design to manufactured products. Through that process we created the leading brand of decoys, and Flambeau is the only major decoy brand that makes its own decoys in its own plant in North America. Today, Flambeau Outdoors products span every major hunting segment including waterfowl, deer, turkey, upland game, and predator. Within these segments the Flambeau name is known by consumers for providing top-quality products with meaningful innovations. Flambeau uniquely combines decoys, game calls and accessories, game feeding and weapons storage products. Flambeau Outdoors, with its leading products, provides you with GEAR FOR EVERY SPECIES AND SEASON.

UVISION™ TECHNOLOGY FLAMBEAU® DECOYS HAVE CORRECT COLOR!

Flambeau® has formed an exclusive partnership with Twilight Labs, Inc. to utilize the patent pending UVision™ coating technology. UVision matches the reflectance of feathers in the full range of light visible to birds, including ultraviolet (UV). Flambeau decoys are now available with colors that look correct to the birds.

Humans have 3 cones in their eyes and see the 3 primary sight colors.

Humans see 3 primary colors. All color visible to humans are blends and combinations of these three colors. Deer and mammals see 2 primary colors (green and blue) and blends and combinations of the 2 colors. Blaze orange is worn by deer hunters because deer cannot distinguish this color from other woodland colors.

Birds have 4 cones in their eyes and see the 3 primary sight colors and a 4th element-UV.

Birds see 4 primary colors. All color visible to birds are blends and combinations of these 4 colors. Humans cannot see this 4th color (UV) as we do not have the 4th cone in our eyes. Birds see the same 3 colors as humans see, PLUS an additional color in the UV spectrum.

Current decoy colors do not appear real to birds because all current decoy paint absorbs UV light while real bird feathers reflect UV light.

Real bird feathers reflect UV.

UV scans of a real Mallard and Canada Goose shows key feather areas that reflect UV light. UV is highly reflective in the lighter colors (white, creme, beige, and light gray).

UVision paint reflects UV light in the proper ratio just like real bird feathers.

UV scans of a decoy painted with standard paint and one painted with UVision paint. Every color has an exact UV reflectance signature. The decoy painted with UVision paint reflects Ultraviolet light in the correct areas while the standard paint absorbs UV light. With UVision, each decoy color is perfectly matched to the proper level of UV reflectance of a real bird.

Waterfowl's fourth cone provide them an advantage over hunters as they have learned to associate a "threat response" with incorrectly colored decoys. UVision is the first paint technology that exactly matches the UV reflectance, (invisible to humans), of decoys to real birds, so that incoming birds can no longer tell the difference between a Flambeau® decoy and a live bird.

UVision™ Paint

6100PT 1 Qt. White

6101PT 1 Qt. Tan

Highlight existing decoys with exclusive UVision™ Paint.

- Easy to apply
- Works on all decoys

Add UVision™ Technology to your old decoys!

UVision™ Paint Kits

6250PT UVision Mallard Kit

6280PT UVision Goose Kit (not shown)

Paint 1 dozen Mallards (8 drakes, 4 hens) or 1 dozen Canada Geese with exclusive UVision™ Paint using Flambeau realistic paint schemes.

- Contains all colors necessary to paint entire decoy

STORM FRONT™ DECOYS

Ultra Visible...Ultra-Violet...Ultra-Effective

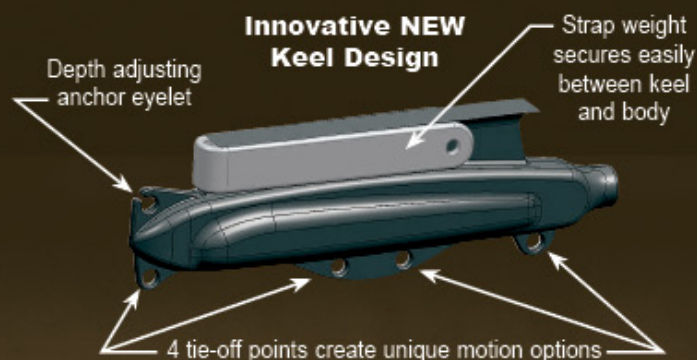

Waterfowl hunters nationwide can close their eyes and draw on the powerful memory of a waterfowl morning.....dawn breaking, decoys set, piercing cold shotgun steel, hot coffee, frozen fingers, steamy dog's breath.....anticipation.....and if the weather gods are with you.....birds driven in on the edge of a Storm Front. Waterfowl hunting success can be razor thin and you need every advantage in the pursuit of this unforgiving passion.

Drawing on decades of experience as a market leader and innovator, Flambeau is proud to introduce Storm Front™ Decoys as its newest line of waterfowl decoys. Every ounce of Flambeau knowledge and experience was put to the test in pioneering these extraordinary creations. There is not a product on the market today that can guarantee a successful hunt...although....Storm Front Decoys, boasting the laundry list of features and benefits below, sure can come close!

MADE IN NORTH AMERICA...Flambeau Factory, Flambeau People, Flambeau Quality

- Carved by renowned master carvers
- Complete new postures and positions
- Patent pending UVision™ Paint Technology (see page 2)
- Proprietary polymer blend yields tough "battleship" feel
- Paint system yields unsurpassed adhesion/durability
- Proprietary motion stakes on field decoys yields realistic motion
- Top notch in-season shipping and service
- Proprietary keel design on floating decoys allows for multiple tie-off points and motion never before achieved

STORM FRONT™ DECOYS

New! FULL-BODY MALLARD

MASTER CARVERS

Tom Christie

Tom Christie started carving in 1986, and since that time has won numerous awards and become one of the most prominent names in gunning decoy

carving. His accolades include being the only 4-time World Champion in the World Shootin' Rig category, and the 8-time IWCA Champion. He has won more than 50 Best of Shows in competitions across the country. Tom's inspiration comes from a love of waterfowl and the traditions of hunting with decoys.

Dave Van Lanen

Wildlife artist Dave Van Lanen has long been recognized by Ducks Unlimited having received their Conservation Service Award, Numerous Artist of

the Year awards, and was commissioned to paint waterfowl art for DU wine labels. Dave has won numerous carving awards including over 150 National Ribbons and 15 Best of Show awards.

Rich Smoker

Recipient of 75 Bests of Shows and over 500 ribbons in total. 2008 World Champion and Vice President of the Board of Directors of the Ward Foundation. Waterfowl Festival

Hall of Famer and two-time Masterpiece Artist of the Waterfowl Festival; Easton, Maryland. Maryland Traditional Arts ALTA Award, "living heritage" award 2011. Highly sought after carving instructor on the Eastern Shore of Maryland.

REALISM THAT GETS RESULTS

DEER DECOYS

Masters Series™ Boss Babe™

5965MD

Packed 1/ctn.
Ship. Wt. 14 lbs.

All parts fit in body cavity for easy transport

BOSS BABE™

Flambeau's Masters Series Boss Babe will lure in that trophy buck.

The Preferred Decoy of Trophy Whitetail Hunters.

The Masters Doe replaces Flambeau's Redi-Doe, the best selling deer decoy for almost two decades and the first deer decoy ever created. This Masters Boss Babe can be used alone or as a perfect compliment to the Boss Buck. An approaching trophy whitetail won't be able to resist a Boss Buck and Masters Doe used together to create a deadly realistic scene.

- Amazing realism created by award winning sculptor Chris Schiller
- Limbs, head, and ears break down quickly and can be stored inside the body cavity for easy transport
- Secure plug provided for the head hole so that parts don't fall out during transport
- Secure leg attachment system features a large diameter screw cap to lock down each leg from inside the body
- Features two separate sets of ears to change the attitude of the decoy. One set simulates an alert doe and one set is set back to simulate a submissive doe
- Rear leg designed to accept readily available scent pads using Flambeau's scent management system

Masters Series™ Flocked Boss Babe™

5966MD

Flocked

- Featuring all the perks of the original Boss Babe™, but flocked which gives this decoy a fur like texture and appearance
- Flocking reduces noise during transport and setup

DEER CALLS

6-in-1 Grunt/Bleat Buck and Doe Call

1110

- This high-powered, easily adjustable, do-it-all call combines the most productive sounds that consistently call in deer
- With the simple adjustment of an O-ring, this call produces dominant buck grunts, doe grunts, and aggressive mature buck bawls
- Easily adjusts to hot doe bleats, young deer bleats, and highly effective fawn distress bleats
- All calls have great range for both tone and volume

Grunt Deer Call

33

- This original grunt call perfectly imitates the grunting sounds of deer
- No-stick reed system
- Includes lanyard

Gold Series™ Doe Bleat

KMB15

- This adult doe bleat call delivers realistic sound with dependable all-weather performance
- Great for attracting bucks during rut
- Equally effective in open country, thick brush and broken terrain

Gold Series™ Triple Grunt

1107

- Perfect choice for all deer hunters, regardless of experience levels
- No-stick reed system eliminates sticking in cold weather
- Easy to blow, triple tone design offers great versatility by delivering long, mid and close in grunts
- Unique gold poly material affords a rich look and unmatched tone and volume

REALISM THAT GETS RESULTS

DEER & MOOSE CALLS

Bleat Deer Call

30

- Imitates mews and bleats of young deer
- Works well on both bucks and does
- Proven performer for trophy deer

Snort Deer Call

32

- Creates confusion and brings deer in out of curiosity
- Bucks snort to challenge other bucks
- Perfect for stopping moving deer and use during rattling routine

Dynamite Rattler™ Call

43

- This innovative design is sure to make other rattlers obsolete
- Durable all-weather sound chambers utilize specifically designed holes and grooves to deliver realistic sounds every time
- Simply roll between both hands, or work with one hand
- Effective "instant quiet" design stops when you stop
- No bag to absorb odor, rip, tear, or inhibit sound
- Snaps conveniently to belt or stand

K'meer® Whitetail Call

KM100

- This communication call is different than a bleat or grunt, and actually says "Come here", "Come closer", and "Stay here"
- Attracts both bucks and does
- Compact design easily fits in a shirt pocket

Mega Cow™ Moose Call

M5

- This reed-operated cow moose call is incredibly easy to operate
- This unique design utilizes a special reed system, enhanced by a specially designed horn

Size 17" Decoy
Packed 12/ctn.
Ship. Wt. 8 lbs.

- Life-like Flambeau decoys will attract even the most cautious crows

Foam Dove Decoy

5930FD Single **5934FD** 4 Pack **5935FD** 6 Pack

Size 11" Decoy	Size 11" Decoy	Size 11" Decoy
Packed 24 pc Display	Packed (8) 4 Packs	Packed (4) 6 Packs
Ship. Wt. 4.5 lbs.	Ship. Wt. 4.5 lbs.	Ship. Wt. 4.5 lbs.

Doves are attracted to decoys better than most birds because of their flocking nature - when several of our dove decoys are grouped in a section of a field, they'll bring the fast-flying birds into effective shooting range.

- Particularly successful when placed in trees near roosts and along clean banks by water holes
- Realistic feather patterns and true-to-life color
- Soft, lightweight polyethylene foam; weighs 1 oz. each
- Comes with clip attachment for easy setup

Foam Crow Decoy

SF00710 6 Pack

Size 17" Decoy
Packed (4) 6 Packs
Ship. Wt. 6.4 lbs.

Use crow decoys for both passive (feeding) and aggressive (fighting) set-ups. Use several decoys spread out in a field to simulate feeding or several decoys congregated together over an Owl decoy to simulate a fight. Combine these set-ups with mouth blown or electronic calls and let the fun begin!

- Life-like and anatomically correct
- Lightweight, durable foam

5900FC Single

Size 17" Decoy
Packed (12) Singles/ctn.
Ship. Wt. 3.2 lbs.

Flocked Foam Crow Decoy

5900FCR Single

Size 17" Decoy
Packed (12) Singles/ctn.
Ship. Wt. 3.2 lbs.

Flambeau's proprietary foam flocking process yields an unbelievably realistic crow decoy. No shine, no glare... just perfectly realistic crows that when set as a flock will bring in birds or provide confidence on a predator hunt.

- Lightweight, durable foam
- Amazing realism

REALISM THAT GETS RESULTS

UPLAND & SPECIALTY CALLS

Pheasant Call

102

- Produces the excited cackle of the cock pheasant for flushing birds, and the assembly cluck of the flock for early morning locating
- Works especially well near roosts
- Field proven

Wood Quail Call

115W

- Primarily designed for California Top-Knot quail, but works perfectly for Bob White and Chukar
- Also a superior hawk call
- All wood construction
- Field proven

Chukar Call

117

- Simple hand-operated call that gives the natural clucking sound of the Chukar
- Great call for locating the Red Legs in big country
- Field proven

Mr. B's Distress Squirrel Whistle

72

- Imitates the shrill, high-pitched squeals of young squirrels in distress
- Change the volume and pitch by inhaling or exhaling on either end of the call
- Squirrels will give away their location after hearing this call
- Field proven

Bark Squirrel Call

109

- Considered by many experienced hunters to be the best, most realistic bark type squirrel call on the market
- Simply tap the bellows to create the simplest barks to the most excited chatter of squirrels
- Remove bellows and blow for scream of gray squirrel
- Field proven
