**TURKEY AND PREDATOR HUNTING
BUYER'S GUIDE**

TURKEY/PREDATOR BRANDS

REALISM THAT GETS RESULTS

At Flambeau®, we're proud to be a part of the outdoors industry and to combine the Flambeau, MAD®, Circe®, Feather Flex®, and Kenco® lines of products into a meaningful offering of leading brands in each of their respective categories. Flambeau's origins go back to 1947 when W.R. Sauey borrowed money to purchase parts to assemble a plastic molding machine. His first product was the "Halik Frog," a top-water fishing lure, and was made in a very humble 20' x 40' building. With our origin deeply rooted in the outdoors industry Flambeau, as a company, is known for providing products that are innovative, highly functional, and unequalled in value for the use they are put to. We are pleased to continue this same approach our company started with and carry it forward in each of our leading brands to provide you with products your customers will appreciate and your business will benefit from.

REALISM THAT GETS RESULTS

Over the years Flambeau created a turnkey internal product development capability that has enabled us to control every aspect of our development process from conceptual design to manufactured products. Through that process we created the leading brand of decoys, and Flambeau is the only major decoy brand that makes its own decoys in its own plant in North America. Today, Flambeau Outdoors products span every major hunting segment including waterfowl, deer, turkey, upland game, and predator. Within these segments the Flambeau name is known by consumers for providing top-quality products with meaningful innovations. Flambeau uniquely combines decoys, game calls and accessories with game monitoring, game feeding and weapons storage products. Flambeau Outdoors, with its leading products, provides you with GEAR FOR EVERY SPECIES AND SEASON.

MAD® was originally founded by World Champion Turkey Caller Mark A. Drury in 1993. MAD is currently one of the fastest growing brands in the hunting industry based on the application of innovation and new technology to old hunting traditions. MAD's consumer following is made up of hard core, passionate hunters who spend every working minute thinking and planning their next pursuit. These hunters want an edge and MAD delivers with hard charging print, video, and television promotions combined with exciting products that are developed and tested by experts. Help your customers be part of the action... Be A MAD Man.

Circe® was founded in 1958, a joint venture of 2 Arizona predator callers. Circe is over 50 years old and still going strong, considered by most as their first and still favorite predator call. Circe started out as an all wooden call, the unique design and technology of a stepped down internal barrel resulted in considerably more decibels (volume) compared to other manufacturers. In 1964 the Circe Professional Model MVP-4, 3-in-1 was brought to the market, the only one of its kind allowing the caller to change from long range to medium range and close range perspective with a simple twist of the call. 1970 saw Circe make the big switch to plastics where they still are today. Flambeau is proud to continue the tradition of producing the best selling predator call ever; Circe truly is the "Call of the Wild"

Feather Flex® decoys were a pioneer in portable foam decoys and have been the standard that almost every other decoy company has copied. Brought to market in the 1970s, Feather Flex decoys have found their way into the turkey vest of every notable turkey hunter in this country. Still the most popular and largest manufacturer of foam decoys, still produced in some of the original molds. Detailed paint jobs combined with sturdy memory retaining foam are still a standard, as well as new carvings are continually produced to keep up with the demand of the detail conscious consumer. From full strut gobblers that accept enough body parts to do all but gobble to single position lone hens, Flambeau's Feather Flex series of foam decoys have you covered.

Halik Frog Lure

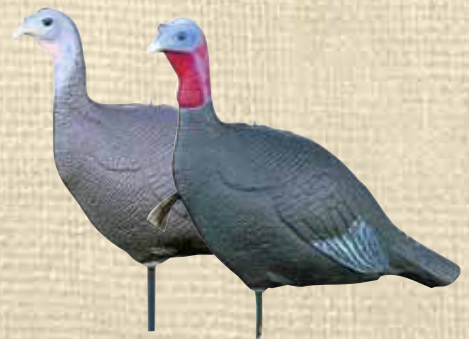

Masters Series™ Decoys

MAD® Classic Aluminator

Circe® Open Season Predator

Feather Flex® Perfect Pair

TURKEY DECOYS

Flambeau® Masters Series™ Turkey Decoys are the most realistic and innovative decoys available. Flambeau's proprietary head designs yield a tough rubber head painted to exactly replicate hens, jakes, or gobblers. These heads are mounted to a double thick foam body which yields a durable yet easily packable decoy. The lightweight design also allows for extremely life-like motion with minimal wind.

Masters Series™ King Strut™ Turkey Decoy

REALISM THAT GETS RESULTS

REALISM THAT GETS RESULTS

Foam thickness and texture that stands alone!

Each Feather Flex® Decoy is constructed with unsurpassed attention to detail, from realistic feather patterns to true-to-life color. We cast our turkey molds using anatomically correct specifications from actual turkeys, allowing us to craft the most accurate foam decoys in the industry today. This process allows Feather Flex to incorporate incredible detail into each design, from the head structure to the correct size proportions and even feather patterns of hens and jakes. Our thick and durable, yet soft and lightweight polyethylene foam construction responds to even the slightest breeze, providing irresistible wind-activated movement. Grommets in the back allow for quick positioning of the ground stake and the convenient opening underneath allows for easy set-up. Our attention to detail sets us apart and allows us to create the industry's premiere soft decoys.

The Love Triangle® Decoy Set

SF00857

Create an irresistible scene for any gobbler. The Love Triangle® flock will attract even the most wary Toms to your decoys. By incorporating "AJ" the Aggressive Jake, "PJ" our Passive Jake and our Three Position Hen decoy, you can match the mood and mating habits of turkeys in any given area.

- Realistic feather patterns and true-to-life color
- Set includes 3 lightweight polyethylene foam decoys
- Multiple set-up options:
 - The Three Position Hen can be used in the standing, feeding or breeding position with the "AJ" Aggressive Jake decoy
 - "PJ", the Passive Jake decoy, will add a calming effect to your spread and is excellent at attracting mature, subordinate Toms
 - "AJ", the Aggressive Jake decoy used with the Hen provides the ultimate set-up for attracting mature dominant Toms

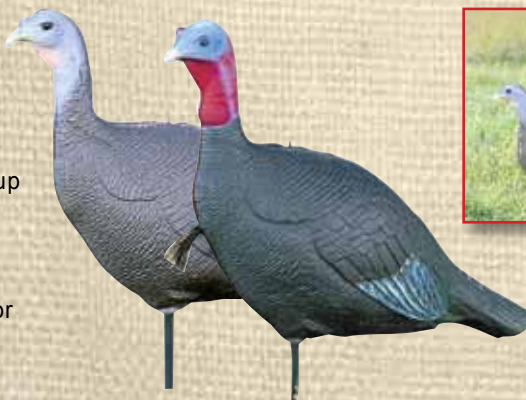

Create numerous realistic situations to lure in that dominant Tom.

Purrfect™ Pair

SF00858

- The Purrfect Pair provides the ultimate set-up for attracting mature, dominant Toms
- Includes one Hen Decoy and one "AJ" Aggressive Jake Decoy
- Realistic feather pattern and true-to-life color
- Irresistible wind activated movement
- Soft, lightweight polyethylene foam

TURKEY DECOYS

Aggressive Jake

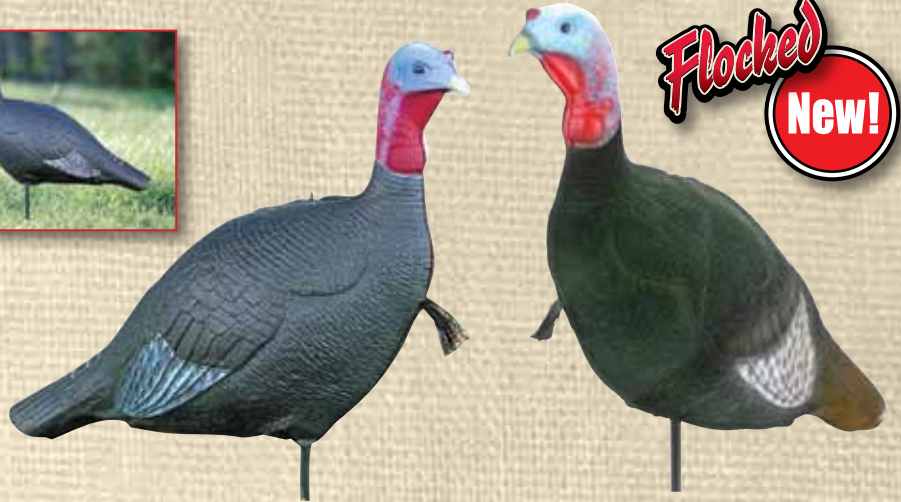

SF00847

SF00947 FLOCKED

"AJ", the aggressive Jake decoy, provides the ultimate set-up for attracting mature, dominant Toms.

- Realistic feather patterns and true-to-life color
- Irresistible wind activated movement
- Soft, lightweight polyethylene foam
- Flocking eliminates decoy shine, creates the illusion of real feathers and adds unsurpassed realism!

Three Position Hen

SF00856

SF00956 FLOCKED

The Three Position Hen's standing, feeding or breeding positions allow you to match the mood and mating habits of turkeys in any given area.

- Unique and patented grommet system allows one decoy to take the place of three regular decoys by offering multiple positions
- Realistic feather patterns and true-to-life color
- Irresistible wind activated movement
- Soft, lightweight polyethylene foam
- Flocking eliminates decoy shine, creates the illusion of real feathers and adds unsurpassed realism!

Turkey Hen

SF00845

This Hen takes decoy realism to an unprecedented level, for a look gobblers find irresistible.

- Realistic feather patterns and true-to-life color
- Irresistible wind activated movement
- Soft, lightweight polyethylene foam
- The unique Feather Flex® movement and coloration provide high visibility over great distances

REALISM THAT GETS RESULTS

TURKEY CALLS

Classic Aluminator

MD-350

- Designed by champion turkey callers Mark Drury and John Williams with unique sound ports
- Walnut pot and unanodized aluminum striking surface
- Unbelievably easy to operate
- Each call hand paired by champion caller John Williams
- Custom Dymond wood striker and 100% waterproof Rainy Day carbon striker included

Cherry Bomb Pot Call

MD-324

- Designed by champion turkey callers Mark Drury and John Williams with unique sound ports
- Full of ringing yelps, sharp, clear cuts, and mellow sweet talk
- Select grade slate top and glass sound board
- Each call hand paired by champion caller John Williams
- Dymond wood striker

Heavy Metal™ Aluminator

MD-344

- Innovative, black anodized T6-6061 aircraft aluminum pot works like a tuning fork. Depending on the position of the hand any wild turkey vocalization can be achieved. Our "tuning fork effect" is a revolution in turkey calling
- Black anodized calling surface features incredible volume and resonates at over 15,000 Hz with a natural, realistic tone
- 100% waterproof
- Includes Ash Top Carbon Fiber Striker and a BONUS Hickory Striker

1-Piece Exotic Striker

MD-352

- Yields the purest sounds possible out of your pot call
- Produces yelps, cuts, cackles and clucks your old striker could not dream of
- Mushroom head makes for easy use
- 1-piece design fits comfortably in your hand

TURKEY CALLS

Shady Lady™ Box Call

MD-346

- Exotic Purple Heart lid with furniture quality Mahogany box
- Produces the raspy yelp of that ol' boss hen
- Unbelievable cutting calls
- Laser engraved
- Hand tuned

Cherry Bomb Box Call

MD-329

- Yields explosive, high-pitched hen calls from one side of the box
- Emulates the low, gravelly yelps and clucks of a juvenile male from the other side of the box
- Solid one-piece cherry box coupled with a hand-picked purple heart top
- Carefully hand-tuned and inspected

Heavy Metal™ Box Call

MD-345

- Box is uniquely constructed of black, anodized T6-6061 aircraft grade aluminum
- Underside of American walnut lid is coated with a proprietary formula that makes this box call WATERPROOF and CHALK-FREE
- Lethal combination of wood and aluminum yields realistic, high pitched turkey calls peaking over 15,000 Hz
- Hardwood end blocks are angled to produce a different pitch on each side of the box
- Aluminum box can be "tuned" by varying hand position

River Otter™ Box Call

MD-315

- Solid one piece American ash box with exotic Purple Heart lid
- 100% Waterproof; works wet or dry
- New special coating will never need chalk
- High frequency cuts and yelps
- Right or left handed

REALISM THAT GETS RESULTS

A FLAMBEAU® OUTDOORS BRAND

TURKEY CALLS

Boom Box Call

MD-379

- Compact design yields portability yet screams like a 1994 SONY!
- One-piece poplar box topped with a cherry paddle
- Assembled and hand tuned here in the USA!
- Creates great yelps, cutts, clucks and purrs

Box Call Kit

MD-380

- If you build it... They will come!
- Allows consumers to harvest a long beard with a call they assembled and tuned themselves
- Consists of the American hardwoods walnut, cherry, and poplar
- Allows consumers to customize the call to suit their individual needs
- Instructions included

The Egg™ Push Button Yelper

MD-340

- Unique shape offers comfortable, one hand operation
- Aluminum sounding board for true high-pitched tone
- Functional as both a traditional push button turkey call, or as gun mount
- Includes gun mount attachment

Hatchet™ Box Call

MD-320

- Easier to use than a push button and more realistic than a box call
- Operate with one hand or two to produce realistic turkey talk that peaks at 15,000 Hz
- Includes a Purple Heart Hatchet striker and mahogany sound board

Crow Call

MD-410

- Classic crow call design
- Long range locator; great for a breezy day
- Easy to use and field proven

Owl Call

MD-411

- Classic owl call design
- Mid to long range volume
- Easy to use and field proven

TURKEY CALLS

Locator Series Owl

MD-190

- Adding a new techy look to an old tradition
- Creates the realistic high pitched sounds of the Barred Owl, including hoots, laughs, and growls
- High impact poly-carbonate barrel produces unsurpassed VOLUME!

Locator Series Crow

MD-191

- Adding a new techy look to an old tradition
- Creates the realistic sounds of the crow for locating spring gobblers
- High impact poly-carbonate barrel produces unsurpassed VOLUME!

Locator Series Hawk

MD-192

- Adding a new techy look to an old tradition
- Creates the realistic squalls and piercing screams of a hawk for locating spring gobblers
- High impact poly-carbonate barrel produces unsurpassed VOLUME!

Locator Series Howler

MD-193

- Easy to operate
- Produces dominate howls!
- Extreme volume locates turkeys from afar
- Hand tuned in the U.S.A.

A FLAMBEAU® OUTDOORS BRAND

MAD

BE A MAD MAN

TOUCH SERIES

Billy Yargus

Billy Yargus Touch Series Diaphragm Calls

The Touch Series, a brand new line of diaphragm calls from MAD®, is the first family of diaphragm calls to be designed and produced by a Grand National Champion. Yep, that's right, Grand National Champion Billy Yargus hand cuts and tunes every piece of latex. Rest assured that each and every call that is delivered by MAD will be of the finest quality and ready to bring those big strutting toms into range.

Whether you're a novice or professional, prefer a cutter call or an ol' raspy yelper, you can find a call in the Touch Series that meets your individual preference.

Eternal Touch

MD-175

- Triple reed snake tongue cut
- Cutts, purrs, cackles and yelps
- Extremely versatile call from the high end to low end
- From open day to the last day of season this call will always produce results

Deadly Touch

MD-170

- 3-1/2 reed V-cut
- Heavy top reed produces extra raspy yelps
- Produces perfect purrs and clucks
- Locates reluctant gobblers

Final Touch

MD-171

- Triple reed ghost cut
- Extra raspy and also easily produces the Kee-Kee of a lost hen
- Sounds like that old momma hen
- Go-to last season call

Soft Touch

MD-172

- Double reed design
- Great for coaxing Toms those last few yards
- Requires little air pressure yet produces aggressive yelps and cutts

Cut-n Touch

MD-173

- Triple reed cutter call
- Designed to produce the aggressive sounds of that ol' boss hen
- Requires little air pressure

TURKEY DIAPHRAGM CALLS

MAD® High Frequency Diaphragm Calls

For years the mouth call market has been cluttered with thick-reeded, hard-to-use diaphragms rarely capable of topping 15,000 Hz. MAD® has perfected a prophylactic/latex combination that screams to the magical 15,000 Hz. level. Look for the telltale Red Tape of these mouth calls. Red means it's one hot performer and a member of MAD's exclusive 15,000 Hz club.

“Shipp” Wreck 2

MD-111

- 1/2 “V”, 1/2 Cutter, 2.5 reeds
- Features a 2.5 reed with our #1 selling cut
- This cut propelled renowned caller, Don Shipp, to an unprecedented three consecutive World Championships

“V”enom

MD-112

- Mini “V”, 2.5 reeds
- This design requires minimal amounts of practice and air pressure to achieve high pitched cuts and yelps
- Perfect choice for the first-time mouth caller

“Hyper” Hen

MD-113

- Square Cutter, 2.5 reeds
- Combination of the top premium latex reed with two latex kicker reeds creates an extraordinarily high pitched diaphragm
- Truly shines on the whistles, yelps and cutts of a hyper hot hen

High Frequency Tri-Pack

MD-114

- Be prepared for any calling situation by having three MAD High Frequency 15,000 Hz diaphragms
- Tri-Pack contains the “Shipp” Wreck 2, “V”enom, and the “Hyper” Hen

Highball™ 2

MD-119

- Allows for unmatched realism in sassy yelping and cutting
- Even more effective than the original, this design will change the way that you blow a mouth call

Poison™ 2

MD-120

- The unique combination of a cutter and inverted “V” in the back yield a deadly call
- For years, the poison design has been the first in the field and on the stage
- The new high frequency design is even more effective than the original

REALISM THAT GETS RESULTS

A FLAMBEAU® OUTDOORS BRAND

Highball™

MD-100

- Allows for unmatched realism in sassy yelping and cutting
- High pitched sound of young adolescent hen.

“Shipp” Wreck

MD-102

- Features 3 reeds and a two part cut
- Capable of combining the sweet yelp of a cutter call with the raspiness of a “V” cut call
- Winner of many calling championships!

MVP™

MD-104

- BEST SELLER
- Unique “V” Cut gives this call extra rasp for old hen yelps and sharp cuts
- Great range and easily produces entire range of hen turkey

Poison™

MD-105

- Unique combination of a cutter and inverted “V”, yield a deadly call
- For years, the Poison design has been first in the field and on the stage

Grand Slam™ 4-Pack

MD-150

- Eastern- 3 1/2 reed design with a single split cut replicates those hard cutting and yelping hens from the East and Midwest
- Osceola- 2 1/2 reed design with a single split cut replicates the aggressive Osceola hen on the lighter side, produces most of the Osceola hen vocabulary
- Rio Grande- 2 1/2 reed design with a square cut & split combination creates the high-pitched vocals of those Rio Grande hens
- Merriam's- 2 1/2 reed call with an inverted “V” cut with the tongue removed creates the high-pitched rasp of a Merriam's hen

PREDATOR DECOYS

REALISM THAT GETS RESULTS

Masters Series™ Lone Howler™

5985MS

**The Most Realistic
Coyote Decoy
Available!**

- The faux fur tail with wire frame is posable and moves in the wind

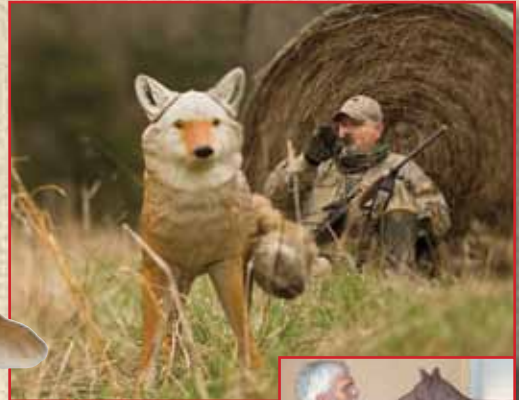

Spike for
scent pads

Packed 1/ctn.
Ship. Wt. 9 lbs.

Lone Howler™

Masters Series™ Coyote Decoy

The Lone Howler™ was created by renowned wildlife artist and bronze sculptor Charlie Norton. From his studio in Leoti, Kansas, Charlie creates wildlife masterpieces that utilize decades of experience and creative ability.

The Lone Howler's bungee leg system allows the decoy to be easily transported and placed in sitting or laying position. Simulate captured prey by attaching a white rag or rabbit pelt to the snout to elicit an instinctive response from approaching coyotes

Masters Series™ FLOCKED Lone Howler™

5986MS FLOCKED

- Featuring all the perks of the original Lone Howler™, but flocked which gives this decoy a fur like texture and appearance
- Flocking reduces noise during transport and setup

Flocked

**FLOCKED
TEXTURE PROVIDES
AMAZING REALISM!**

SPECIALTY DECOYS

Use Specialty Decoys to Create a Realistic Predator Stand

- Great Range
- Produces close range squeaks to long distance cottontail and even sub-dominant howls
- Allows user to switch from distress cottontail to barks and howls in seconds by manipulating the reed
- Hand tuned in U.S.A.

Open Reed Howler

MD-188

- Produce entire coyote vocabulary including: yips, barks, whines, pup fights, and low/high pitch howls
- Long range rabbit and fawn distress volume
- Hand tuned in U.S.A.

Closed Reed Howler

MD-189

Dominant Howls!

- Easy to use
- Dominant howls!
- Extra volume with open sound chamber
- Shrill yips and howls
- Hand tuned in U.S.A.

Custom Cherry Open Reed Howler

MD-186

- Produce entire coyote vocabulary including: yips, barks, whines, pup fights, and low/high pitch howls
- Produce wide range of distress calls
- Durable and weatherproof

REALISM THAT GETS RESULTS

Flambeau
OUTDOORS

A FLAMBEAU® OUTDOORS BRAND

PREDATOR CALLS

Durable Weatherproof Circe® Calls

Circe® Three Calls In One

MVP-4

- Includes one Jackrabbit, one Cottontail, and one Coaxer voice
- Completely self-contained
- Quickly changes from voice to voice by simply twisting top
- Great for long-range, mid-range, and close-in calling
- Non-corrosive stainless steel reeds
- Hand-tuned

Circe® Coarse Long Range Rabbit

P-1

- Produces the loud, gravelly scream of the rabbit in distress
- Great for extra-long range calling in open country or for windy days
- Hand-tuned, this call has been known to bring in predators for over a mile
- Non-corrosive stainless steel reed

Circe® Medium to Long Range Cottontail

P-2

- Produces the high-pitched scream of a cottontail rabbit in distress
- Most effective in wooded areas, after the jackrabbit call is used to start the predator your way
- Hand-tuned, very effective in coaxing game within camera, gun or bow range
- Non-corrosive stainless steel reed

Circe® Close Range Coaxer

P-6

- The Circe® Squealer has a higher pitched voice and produces less volume
- Especially designed for calling bobcat, coyotes, and fox in close dense cover
- Non-corrosive stainless steel reed
- Hand-tuned

Circe® Open Season Predator

214

Incredible Volume!

Includes Lanyard!

- Allows user to go from long distance cottontail distress wails, to close in squeaks in seconds, by manipulating the open reed with your teeth
- Hand-tuned, creates great barks, yips and sub dominant howls
- Compact open reed
- High volume long-range predator calling

Mouse Squeaker

240

- Soft bellows perfectly imitate the squeaks of field mice for close-in work on predators
- Simply squeeze bulb, and the pre-tuned squeaker does the rest
- Field proven

MAD

BE A MAD MAN

ELECTRONIC PREDATOR CALLS

Minaska Series Electronic Predator Calls

We are proud to introduce the MAD® Brand to the electronic predator hunting market. These exciting new calls are Made in the USA with parts sourced locally, which allows for continuous product improvement with very little delay. By manufacturing here in the USA, these products are available and in stock at all times to meet your needs.

SOUND LIBRARY

Your customers will appreciate the vast MAD Sound Library that is available for download to these units. We are continually adding new sounds on a monthly basis that will keep predator hunters coming back. Most all units (see details) ship with a FREE YEAR OF SOUNDS available for download from the MAD Sound Library. This is a truly unique offering in the electronic predator calling market. After the first year, additional years can be added for a nominal charge or single sounds are available for purchase at any time.

VOLUME AND CLARITY

Each MAD Electronic Predator Call has been thoroughly tested and we are confident these are the loudest and clearest electronic calls available in their class.

DISTANCE

The MAD remote control is truly unique in its ability to reach out to distances up to 400 yards (line of sight). This advanced engineering gives you the edge you need to make your hunt successful.

POWER

The Ultimate One and Big Country are driven by a 12 Volt SLA battery. When compared to other calls in their class (powered by AA battery packs), these calls last longer and are comparably better on extremely cold days.

MAD® Turkey/Predator Chokes

Designed in partnership with Indian Creek Shooting Systems (winner of multiple World Championships and World Records). MAD's Gobler Max and Dog Pounder combine a patented port design, the technology of Indian Creek and the experts at MAD. These chokes deliver pattern density able to win shooting championships but more importantly these chokes do what they are supposed to do—put the smack down on Ol' Tom or Wiley Coyote. Visit our website to follow the MAD shooting team.

Lead, steel and high density shot compatible

Patented port design

GEAR FOR EVERY SPECIES AND SEASON

REALISM THAT GETS RESULTS

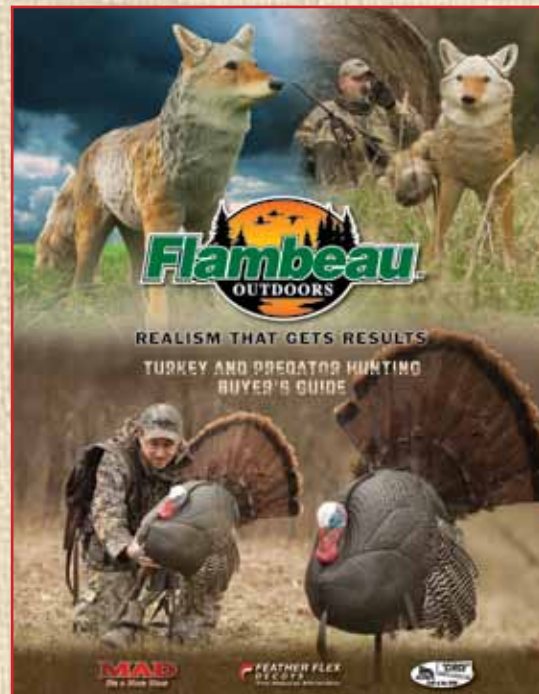

The Flambeau Family of Brands truly represents Gear for Every Species and Season spanning the worlds of waterfowl hunting, deer and big game hunting, turkey hunting, predator hunting, as well as safe, reliable gun and archery storage and transport. Each of these brands is backed by a nationwide pro-staff executing local promotional opportunities, as well as national print and media. Flambeau delivers innovative, unique products created by experts in each hunting category. We are proud to provide two catalogs this year; one detailing gear relating to fall hunting seasons and one detailing gear relating to spring hunting seasons.

Waterfowl: Decoys, calls, accessories, specialty and confidence decoys

Deer/Big Game: Decoys, calls, accessories and game feeders

Gun/Bow: Storage cases, dry boxes

Turkey: Decoys, calls and accessories
